Das Music & Collectibles is an event and auxiliary retail space I operate with a friend in Rollinsford, NH.

Instead of relying on foot traffic and happenstance sales, we host niche events that attract very specific customers that we can then sell targeting products too.

It's a win-win-win, the community gets a space to enjoy their weird hobbies and buy everything they need for them, and we only need to be open when running events, and we curate targeted and motivated markers for our retail operation.
