Summary

As a service delivery manager at The Crox Group, I oversee the delivery of cloud-based solutions and services to clients across various industries. I have more than five years of experience in managing teams, projects, and processes to ensure quality, efficiency, and customer satisfaction. I also have a strong background in human resources and talent management, as I have led the recruitment, training, and retention of diverse and skilled professionals in the field of information technology. I hold a bachelor's degree in information technology from Kurukshetra University, as well as certifications in cloud computing and mobile system administration. My core competencies include cloud computing, HR and talent management, leadership, communication, and problem-solving. I am passionate about leveraging technology to create value and impact for businesses and society. My goal is to continuously learn, grow, and collaborate with others to deliver innovative and effective solutions.
